Nornir elects new board of directors with commercial and growth focus

On the 8th of July 2022, Nornir Holding elected a new board of directors. The new board members' expertise and network will help drive Nornir's growth as it launches Nornir HIVE globally.

Focus on growth, organisation building and commercial positioning

Nornir would first of all like to thank the departing board for their great service and guidance during their tenure. The appointment of the new board of directors marks a new phase for Nornir Holding, as the company positions itself for a global launch and subsequent growth. Each new board member brings invaluable experience and expertise to the table, and compliment each other well.

The new board members

Christopher Ashby	Director of strategic partners at Atea Group
Paul Ehling	Professor of finance at BI Norwegian Business School
Elin S. Hauge	Business and AI strategy consultant
Nils G. Roald	Sales Director EMEA at Pratexo

CEO and founder stepped down as Chairman

Pål K. Levang has stepped down as chairman and passed the baton to veteran of the board and artificial neural network guru, Dr. Asle K. Berger. Dr. Berger has substantial experience within board work, business consulting and organisation building, as well as intimate knowledge of Nornir Holding's technology, past, present and future.

> *"We are very happy with the newly appointed board of highly competent and experienced professionals. Stepping down as chairman has been my ambition for a long time, as it gives me the time and energy to focus fully on the day-to-day operation of the company. I have every confidence in this new board's ability to lead Nornir in this next phase of our journey."*
